

WANTED: LEADERSHIP

UNSW
THE UNIVERSITY OF NEW SOUTH WALES

Presentation Title: Leadership Wanted.

This presentation lays out the scientific case for resolute action on climate change and discusses the critical role of leadership. Since systems, structures and markets conspire to maintain the status quo and prevent change, unprecedented leadership is needed to stave off what may be or become the gravest threat ever to have faced humanity. The acronym “L-E-A-D-E-R-S-H-I-P” represents the panacea capable of confronting 10 building pressures: L—ongevity of CO₂, E—nvironmental Degradation, A—ccelerating CO₂ Emissions, D—eclining CO₂ Removal, E—scalating Temperatures, R—ogue Weather, S—ea Level Rise, H—istorical Emissions, I—nertia of the Climate System, P—opulation Pressures.
